Tor Top	31/7/17		<p>under Maj. Wilkinson left Kille Gate shortly after 10 am. and proceeded to the site of the Road. Maj. Wilkinson was killed by shell fire and the party considerably delayed at the site of the work by machine gun & shell fire. One section of the Coy. under Capt. Macaulay arrived on the ground about 12¹⁵ pm. accompanied by 450 Officers & OR. of the 9th Royal N. Lancashires and commenced grading but were unable to continue as the enemy was using the route which passed N of the Hodge craters as a target for continuous shell fire from 4.2, 5.9 & 11 inch artillery. The Coy. sustained no casualties due entirely to the sodden condition of the ground which allowed H.E. shells to penetrate deeply before bursting. The Infantry and the transport which was supplied independently suffered a little losing 5 men killed and 16 wounded. A party consisting of 2 Officers, 19 sappers and 12 men of R.S.F. were stationed here for general maintenance work. At 3⁵⁰ am. the bombardment became intense and the British attack commenced. Lieut. This party worked for 11 hours under continual shell & machine gun fire. They found a few mine & dugout entries most of which had been wrecked by our artillery. They cut all suspicious wires but found no indications of delayed action mines or traps.
